

From the day we opened our doors, we set out to build flexible, game-changing solutions. Founded in 1971, MRI Software is a leading provider of innovative real estate software applications and hosted solutions.

MRI's comprehensive and flexible technology platform coupled with an open and connected ecosystem meets the unique needs of real estate businesses—from property-level management and accounting to investment modelling and analytics for the global commercial and residential markets.

A pioneer of the real estate software industry, MRI develops lasting client relationships based on nearly five decades of expertise and insight. Through leading solutions and a rich partner ecosystem, MRI liberates real estate companies to elevate their business and gain a competitive edge.

Headquartered outside Cleveland, Ohio, MRI Software is a global name in real estate technology, with a far-reaching worldwide footprint covering EMEA, the Americas and APAC. Across the world, upwards of 1,200 employees in offices across the United Kingdom, United States, Canada, Australia, Hong Kong, Singapore and South Africa, serve more than 17,000 client organisations representing a wide variety of industry sectors. And while our operations make us one of the biggest companies of our kind, experienced and knowledgeable regional teams mean we always offer a personalised approach.

In the UK and wider EMEA, MRI now serves in excess of 4,100 clients – and is established as the premier commercial real estate software provider in the region. Driving this success is a robust range of software solutions, refined to meet the complex needs of various markets and sectors, with thousands of successful implementations enabling and support growth for

our clients. In the past two years, the group has grown significantly to incorporate Qube Global Software, [Real Asset Management](#), CML Software, Engage Property Technology, [Postcode Software](#), Thesaurus Technology – and the combined capabilities mean we can offer powerful property management, accounting, sales and lettings tools alongside a sophisticated suite for managing the end-to-end investment life cycle. This is further enhanced by comprehensive facilities management functionality, creating a flexible portfolio to meet any and all requirements.

Technology has changed over the years, but we pride ourselves on staying true to the original vision of our founders, Fred and Sid Goodman.
