Jenec has been working on a service level agreement with very well-recognized meter reading companies, consultants and property management agencies in Gauteng to provide specialized metering services to its clients. The specialized metering services include amongst others the following;

- On-site meter accuracy verification tests.
- Investigation on electricity consumption discrepancies.
- Supply and install high accurate electronic single & three phase meters and solar systems
- Replacement of old and faulty meters.
- Installation and commissioning of Large power users metering.

We also provide specialized metering services and electrical works to various property management agents for a number of properties in their portfolios. We have handled successfully and still working on a number of electrical and billing queries for these management agencies.

We are an independent metering service provider for City Power for over 6 years now proving them with expects metering services when their customers require independent opinion on metering installations.

- In partnership with CigiCell in Revenue recovery Programme with various municipalities.

19. Innovative Idea

Jenec has come up with an innovative value add service to the real estate industry where we provide the electricity meter accuracy verification report together with electrical wiring compliance certificate (CoC) for the seller.

This service is gaining support from a number of real estate agencies as it is not only unique but gives new owners a piece of mind that the electricity meter is tested and is within allowable accuracy limits.
